

JULIUS-K9®

Pet Food JK9 x Panzi

Professional dog food, not just for professionals.

The food is unique, just like the harness.

In 2017, we entered into a licensing agreement with PanziPet Ltd., a company founded in 1996. Under this partnership, PanziPet manufactures and distributes Julius-K9–branded pet food and nutritional supplements worldwide.

We are proud that the products are manufactured in Hungary, based on local recipes and developed according to the designs created by our Hungarian creative team.

The Concept

*Professional dog food,
not just for professionals*

JULIUS-K9® Dog Food recipes are crafted by professional nutritionists with decades of experience while keeping in mind the special dietary requirements of working dogs, race dogs and urban dogs. All ingredients are sourced from within the European Union from suppliers who adhere to our quality guidelines. These ingredients are used to formulate our unique recipes. The final product is packed in triple layered bags that preserves nutrition and aroma. We promise that the originality, functionality and quality you experience with the JULIUS-K9® harnesses will be delivered in our food as well.
